2025, v.1	Document created by the Council for Allied Health Professions.

Disclaimer: To ensure access to the most up-to-date and accurate information, this document should not be shared as a download but rather using its weblink.

# 1. Introduction

This document outlines the requirements for initial registration with the Council for Allied Health Professions as a diagnostic imaging technologist and identifies specific certification requirements for each modality listed below.

- Radiologic Technology
- Nuclear Medicine
- Computed Tomography
- Ultrasonography
- Mammography
- Magnetic Resonance Imaging
- Bone Densitometry
- Echsonography

While this document provides an overview of the criteria used to review an initial registration, each application will be independently assessed based on its own merits.

## 2. General Requirements

### 2.1. Application

All applicants must submit an electronic [Health Professional Initial Registration Application](#). All supplemental documentation should be uploaded and attached to the application, with the exception of the [Certificate of Professional Education Form](#) (COPE) and evidence of professional standing from all jurisdictions of licensure. Please review [Allied Health Initial Registration Checklist](#) for a list of required documentation.

### 2.2. Fees

The fee for initial registration as a diagnostic imaging technologist is \$165. Payment must be made via credit card after the submission of the electronic application.

## 2.3. Eligibility to Work

Applicants for initial registration must be eligible to work in Bermuda. Documentation showing eligibility to work must be attached to the application and can include:

- Bermuda or BOTC passport copy with stamp
- Letter of Employment/Job Offer Letter
- Spousal letter
- Valid Work Permit
- Permanent Residency Card

## 2.4. Proof of Identification

Proof of identification includes a **notarized** copy of a valid passport or birth certificate. If your name has changed and differs from the name on your supporting documentation, notarized name change certification documentation must be provided (i.e. marriage certificate).

## 2.5. Proof of True Likeness

A digital head shot photo must be attached to your application. You can take the photo yourself if the image of likeness is clear.

## 2.6. Resume/Curriculum Vitae

A copy of the applicant's resume, or C.V. must be attached to the application and reflect the most up-to-date information.

## 2.7. References

**Two letters of reference** are required and must be attached to your application for registration. All references must be current (dated within the last 12 months), on an official letterhead and signed by the referee. References must be from your most recent previous employers/supervisors (most current and discipline specific).

# 3. Education Requirements

To register as a diagnostic imaging technologist, applicants must have successfully completed an associate degree or higher and professional education in one or more of the diagnostic imaging modalities from an approved educational program.

The academic degree and professional education must be from an accredited institution or recognized by one of the following organizations:

- American Registry of Radiologic Technologists (ARRT)
- American Registry for Diagnostic Medical Sonography (ARDMS)
- Australasian Society of Ultrasound in Medicine (ASUM)
- Australian and New Zealand Society of Nuclear Medicine
- Canadian Association of Medical Radiation Technologists (CAMRT)
- Cardiovascular Credentialing International (CCI)
- College of Radiographers (CoR)
- Commission on Accreditation of Allied Health Education Programs (CAAHEP)
- Health and Care Professions Council (HCPC)
- Joint Review Committee on Educational Programs in Nuclear Medicine Technology (JRCNMT)
- Nuclear Medicine Technologist Certification Board (NMTCB)
- Organizations equivalent to the above accredited institutions and programs approved by the Council for Allied Health Professions

All applicants must have the institution where their professional qualifications were obtained complete the [Certificate of Professional Education Form](#) and email it directly to [professions@healthcouncil.bm](mailto:professions@healthcouncil.bm).

A **notarized** copy of the applicant's professional degree must also be attached to the application.

## 4. Certification Requirements

Diagnostic imaging technologists must submit proof of certification for each diagnostic imaging modality where they hold a qualification. Approved certifications include the following:

- American Registry of Radiologic Technologists (ARRT)
- American Registry for Diagnostic Medical Sonography (ARDMS)
- Australasian Society of Ultrasound in Medicine (ASUM)
- Australian and New Zealand Society of Nuclear Medicine

- Canadian Association of Medical Radiation Technologists (CAMRT)
- Cardiovascular Credentialing International (CCI)
- College of Radiographers (CoR)
- Commission on Accreditation of Allied Health Education Programs (CAAHEP)
- Health and Care Professions Council (HCPC)
- Joint Review Committee on Educational Programs in Nuclear Medicine Technology (JRCNMT)
- Nuclear Medicine Technologist Certification Board (NMTCB)
- Organizations equivalent to the above accredited institutions and programs approved by the Council for Allied Health Professions

## 5. Overseas Licensure

Evidence pertaining to your professional standing in any jurisdiction in which you are licensed or registered is required. A letter or form attesting to your professional standing must be submitted directly to [professions@healthcouncil.bm](mailto:professions@healthcouncil.bm) by the relevant statutory authority.

The Council for Allied Health has discretionary authority to evaluate and recognize foreign licensure for allied health professionals, including diagnostic imaging technologists. The Council for Allied Health Professions aims to balance inclusivity for qualified international practitioners with the need to uphold professional standards and public safety.
