Disclaimer: To ensure access to the most up-to-date and accurate information, this document should not be shared as a download but rather using its weblink.

1. Introduction

This document outlines the requirements for registration with the Council for Allied Health Professions as a medical laboratory technologist. While this document provides an overview of the criteria for initial registration, each application will be independently assessed based on its own merits.

2. General Requirements

2.1. Application

All applicants must submit an electronic [Health Professional Initial Registration Application](#). All supplemental documentation should be uploaded and attached to the application, with the exception of the [Certificate of Professional Education Form](#) (COPE) and evidence of professional standing from all jurisdictions of licensure. Please review the [Allied Health Initial Registration Checklist](#) for a list of required documentation.

2.2. Fees

The fee for initial registration as a medical laboratory technologist is \$165. Payment must be made via credit card after the submission of the electronic application.

2.3. Eligibility to Work

All applicants for initial registration must be eligible to work in Bermuda. Documentation showing eligibility to work must be attached to the application and can include:

- Bermuda or BOTC passport copy with stamp
- Letter of Employment/Job Offer Letter
- Spousal letter
- Valid Work Permit
- Permanent Residency Card

2.4. Proof of Identification

Proof of identification includes a **notarized** copy of a valid passport or birth certificate. If your name has changed and differs from the name on your supporting documentation, notarized name change certification documentation must be provided (i.e. marriage certificate).

2.5. Proof of True Likeness

A digital head shot photo must be attached to your application. You can take the photo yourself if the image of likeness is clear.

2.6. Resume/Curriculum Vitae

A copy of the applicant's resume, or C.V. must be attached to the application and reflect the most up-to-date information.

2.7. References

Two letters of reference are required and must be attached to your application for registration. All references must be current (dated within the last 12 months), on an official letterhead and signed by the referee. References must be from your most recent previous employers/supervisors (most current and discipline specific).

3. Education Requirements

To register as a Medical Laboratory Technologist, applicants must have a bachelor's degree in medical laboratory sciences or an equivalent degree (i.e. medical laboratory technology, biomedical science, etc.).

The degree must be from an academic institution accredited by one of the following organizations:

- National Accrediting Agency for Clinical Laboratory Sciences (NAACLS) in the US;
- Health and Care Professions Council in the UK;
- Equal Accreditation Program in Canada, or
- An equivalent accrediting body.

If the academic institution is not accredited or approved by one of the above bodies (or by a similar national organization of the country of training or other national body governing the profession deemed by the Board to represent a comparable standard) or the standards are significantly different from the above, the Board will request that the applicant submit to an agency at the cost of the applicant. Choices of agencies can include:

1. WES - <https://www.wes.org>

2. ENIC - <https://www.enic.org.uk>

All applicants must have the institution where their professional qualifications were obtained complete the [Certificate of Professional Education Form](#) and email it directly to professions@healthcouncil.bm.

A **notarized** copy of the applicant's professional degree must also be attached to the application.

4. Certification Requirements

All applicants must obtain post-graduation certification, as required in the jurisdiction of study at the time of graduation. **Note: Histologists and Cytologists must have a Histologist or Cytologist certification.** Approved certification programs include:

- Certification by the Canadian Society for Medical Laboratory Science (CSMLS)
- American Society for Clinical Pathology (ASCP)
- American Medical Technologists (AMT)
- Health and Care Professions (HCPC)
- National Certifications will be reviewed on a case-by-case basis.

Evidence of completion must be attached to the application.

Training programs may be approved or requested if the applicant has not had sufficient hands-on experience prior to application.

5. Overseas Licensure

Evidence pertaining to your professional standing in any jurisdiction in which you are licensed or registered is required. A letter or form attesting to your professional standing must be submitted directly to professions@healthcouncil.bm by the relevant statutory authority.

The Council for Allied Health has discretionary authority to evaluate and recognize foreign licensure for allied health professionals, including medical laboratory technologists. The Council for Allied Health Professions aims to balance inclusivity for qualified international practitioners with the need to uphold professional standards and public safety.
