- Other

4

Please share any other suggestions for how we can make this consultation process more accessible and meaningful to you.

Responses (5)

I would prefer future consultation is scheduled after work at 6pm.

Having more than one time period for meetings virtual and in person if possible, ensures adequate representation and feedback.

Professional Training and development with a National strategy and objectives. Further integration of health care professionals services.

Provide clear and direct objectives for desired outcomes and process.

Share the discussion points with the relevant parties in advance and ask for their feedback.
