PURPOSE

This guide follows the [OECD System of Health Accounts](#) (SHA 2011) Health Care Provider (HP) classification and is designed to help health service providers identify the most appropriate category.

It covers HP.1 to HP.6, which include organisations whose primary activity is delivering health care goods or services directly to patients or populations.

Providers offering multiple services should select the category that best reflects their main function or the service that represents most of their operations.

HP.1 Hospitals - inpatient and outpatient hospital services

Code	Category	Examples
HP.1.1	General Hospitals	Acute care hospitals providing a broad range of inpatient and outpatient services.
HP.1.2	Mental Health Hospitals	Psychiatric hospitals and mental health inpatient facilities.
HP.1.3	Specialized Hospitals	Rehabilitation hospitals and other specialty inpatient facilities.

HP.2 Residential Long-Term Care Facilities - residential facilities providing ongoing nursing or personal care

Code	Category	Examples
HP.2.1	Nursing Care Facilities	Nursing homes and skilled nursing facilities.
HP.2.2	Residential Mental Health and Substance Abuse Facilities	Residential addiction and mental health facilities.
